### ACADEMIC PROJECTS:

#### • BE Final year project on "Automated Shopping Trolley"

This system is aimed to shorten the line at a billing counter in any shopping center. Our project system accomplishes the same by displaying the purchasing amount added in customer's Wishlist. The customer can pay the bills for their Wishlist products, via UPI QR code customer can pay and leave with the items purchased.

#### • Diploma Final Year Project on "ATM SECURITY USING BIOMETRIC"

The fingerprint based on biometric system can be easily to secure the ATM machine. Biometric system replaces traditional ATM cards with fingerprint therefore, there is no need to carry ATM card to perform transactions
